Continuation of Substance of Interview including description of the general nature of what was discussed: Applicant's representative was notified a new non-final rejection will be mailed regarding this application. A first action final rejection was mailed on 4/18/2008. The finality of this office action was improper since an advisory action mailed 1/11/2008 indicated the amendment submitted after final raised new issues and would require further consideration and/or search. This non-final office action contains identical remarks as stated in the final office action mailed 4/18/2008 but corrects the status of the application.
